COINS AND MEDALS OF HISPANIC-AMERICA.

I have a number of fine and desirable specimens belonging to this series, which are very attractive to any one who is interested. Send your wants and give me an idea of the particular lines collected. This is a good time to pay attention to a series that is rapidly coming into favor, and forms one of the most interesting, even fascinating, lines of collecting in the numismatic series of the Western Hemisphere.

Mexico in particular is now receiving much attention, and to that country belongs an extremely rich numismatic assortment of coins and medals.

UNITED STATES STORE CARDS.

The increasing interest in Hard Times Tokens, which embrace many varieties of the store cards of the period, shows the gradual tendency to take up once more this very interesting series, which dates from 1789, beginning with the store cards issued by Mott, the New York jeweler, which undoubtedly at one time were freely passed as currency in New York City, and issued up to comparatively recent years in the nineteenth century, embracing numerous curious and odd designs, and perpetuating the names of scores of old business establishments and institutions long since forgotten. Thirty or thirty-five years ago many of our most progressive collectors devoted much of their time and research to the series of store cards. Of late years, however, the series has been neglected, but interest in it promises soon to be revived. Every American collector should possess at least a representative series of these pieces, which now can be bought at a reasonable price.

SPECIAL OFFER.

Ten different varieties of United States store cards, size of the old-fashioned copper cent, in uncirculated (mostly bright) condition, will be sent, post free, forONE DOLLAR
